

LIBRARY:

The Law School Library:

- is one of the biggest libraries in Greece, with over 100.000 copies of books and over 400 journal titles, as well as valuable collections of donations
- provides access to all international law electronic subscription databases
- trains its users on all the electronic resources of the AUTH Libraries System as well as the specialized legal electronic resources, which are available through the annual subscriptions of the Library.

FOR US IT'S JUST THE BEGINNING...

Our vision is to strive for the attainment of educational, research and social goals, faithfully observing the values of

- High quality research activity
- Commitment
- Collaboration
- International cooperation

WE ARE PLANNING THE FUTURE STEP BY STEP WITH YOU

THE SCHOOL

Founded in 1925, the Law School of the Aristotle University of Thessaloniki is the second largest institution in Greece and a leading one in South Eastern Europe for training legal scholars and practitioners. By combining a robust academic program with research opportunities, the School strives to create a welcoming and enabling environment where students will be able to receive up-to-date and useful studies and be equipped with the necessary knowledge and skills in order to adapt in the current ever-changing academic, professional and social environment.

“EUROPEAN BUSINESS AND ECONOMIC LAW”

A high level one calendar year program:
Study European business and economic law in a truly international, multilingual and interdisciplinary program at Law School with a long tradition and widely recognized academic excellence.
Two academic semesters of intensive teaching and the preparation of a Master's thesis.

“EUROPEAN BUSINESS AND ECONOMIC LAW”

AIMS AND OBJECTIVES

- ▶ to offer intensive and targeted modules covering a wide array of Business and Economic Law issues examined from an EU law perspective based on the most recent developments of EU legislation
- ▶ to offer top quality business education enabling our students to become effective managers anywhere in today's globally competitive fast changing environment.
- ▶ to conduct international research of an interdisciplinary and diachronic nature on a range of issues relating to the EU business and economic law
- ▶ to upgrade and enhance our research infrastructure, as well as to adapt to international standards for research excellence and to contribute to the development of European and international education and culture

Specific aims of the Program

- ▶ to assist prospective graduate students in developing the ability to hone their management and leadership skills, operate effectively in a multicultural environment and in adapting quickly to changing social, political, legal and economic conditions.
- ▶ to provide them with a creative environment enabling them to engage in their research duties
- ▶ to assist students to analyse, examine, investigate the competencies they will acquire
- ▶ to offer an insight into professional opportunities and modern organizations functioning in the context of today's competitive world
- ▶ to provide students with the necessary skills, attitudes and approach to decision making as business executives
- ▶ to place emphasis on European and International business perspectives
- ▶ to strengthen their legal background in the field of European Business and Economic Law
- ▶ to give them the opportunity to continue with doctorates degrees

“EUROPEAN BUSINESS AND ECONOMIC LAW”

LEARNING OUTCOMES:

Upon successful completion of this program the students should be able to:

- ▶ combine theoretical and empirical knowledge, so as to be able to tackle simple or complex issues that arise in professional areas of interest
- ▶ demonstrate effective leadership and management skills with heightened cultural awareness and a refined global outlook
- ▶ to cope with the current ever-demanding academic environment and develop their careers at the highest level of national and international practice
- ▶ apply the abilities gained designing and running effective organisations and assisting them in achieving superior performance
- ▶ evaluate complex investments, set and execute financial policies within an organisation and enhance their negotiation skills
- ▶ conduct independent research and combine the methodological and cognitive tools of legal science in an interdisciplinary manner, in order to deliver innovative approaches and proposals
